

# CONTENTS

## Chapter-1

Elementary Integration .....

## Chapter-2

Integration by Parts .....

## Chapter-3

Integration of Algebraic Rational Functions  
Using Partial Fractions .....

## Chapter-4

Integration of Irrational Algebraic Functions .....

## Chapter-5

Integration of Transcendental Functions .....

## Chapter-6

Reduction Formulae .....

## Chapter-7

Definite Integrals .....

## Chapter-8

Area of Curves (Quadrature) .....

## Chapter-9

Length of Curves (Rectification) .....

## Chapter-10

Volume and Surface of Solid of Revolution .....

## Chapter-11

Multiple Integrals .....

---

**Chapter-12**

Dirichlet's Theorem .....

**Chapter-13**

Beta and Gamma Functions .....

**Chapter-14**

Centre of Gravity and Moment of Inertia .....

**Chapter-15**

Improper Integrals .....

**Chapter-16**Differentiation and Integration Under  
the Integral Sign .....
