

# CONTENTS

## 1. NATURE AND SCOPE OF BUSINESS ECONOMICS

---

MC Ivair and Meriam

Spencer and Siegelman

Joel Dean

Scope of Business Economics

1. Selection of Products or Services
2. Choice of Production Method
3. The Determination of Prices and Quantities
4. Promotional Strategy
5. The Pplace of the Location Decision

Differences between Economics and Business Economics

Importance

(a) Theoretical Significance

1. Understanding Economic Behaviour
2. Working of the Economic System
3. Intellectual Value
4. Economic Tools
5. Economic Growth
6. Economic Development
7. Performance of the Economy
8. Economic Planning
9. Prediction
10. Ethical Value

(b) Practical Significance

1. Useful to the Finance Minister
2. Useful to the Minister for Planning
3. Useful to the Bankers
4. Trade Union Leaders
5. Businessmen
6. Statesmen
7. International Economic Problems

Objectives of the Firm

Profit Maximisation

Sales Maximisation Goal

Welfare Goals

Maximum Growth Rate

Desire for Liquidity

Survival

Building up public confidence for product

Production Goal

Inventory Goal

Market Share Goal

Social Responsibilities of a Firm

Review Questions

## **2. CARDINAL UTILITY ANALYSIS**

---

Law of Diminishing Marginal Utility

Assumptions of the Law

Exceptions

The Law and Money

Money is an Exception to this Law

Money is Subject to this Law

Limitations

Importance

Law of Equi-Marginal Utility

Statement of the Law

Assumptions

Limitations

Practical Importance of the Law

Review Questions

## **3. DEMAND ANALYSIS**

---

TYPES OF DEMAND

Price Demand

Individual Demand Curve

Market Demand Curve

Income Demand

Cross Demand

Assumptions of the Law of Demand

1. Tastes and Preferences

2. *Population*

## **Introduction to Business Economics**

3. Discovery of Substitutes
4. Income
5. Weather Conditions
6. Prices of other Goods

Demand Schedule

Why Demand Curve Slopes Downwards?

Exceptions of the Law of Demand

1. Prestige Goods
2. Giffen Paradox
3. Speculation

Ignorance

Fear of Shortage

Necessaries

Determinants of Demand

1. Price
2. Population
3. Income
4. Tastes and Fashions
5. Discovery of Substitutes
6. Prices of Substitutes and Complementaries
7. Seasons
8. Distribution of Income
9. Business Conditions
10. Savings

Extension and Contraction of Demand Vs. Increase and Decrease in Demand

Elasticity of Demand

Elastic and Inelastic Demand

Elastic or More Elastic Demand

Inelastic or Less Elastic Demand

Price Elasticity and its Kinds

Measurement of Elasticity

1. Percentage Method

Total Outlay Method

Arc Elasticity

Geometric Method or Point Method

Income Elasticity of Demand

Cross Elasticity of Demand

Factors Determining Elasticity of Demand

Elasticity of Demand Depends on Many Factors

1. Nature of the Commodity
2. Availability of Substitutes
3. Variety of Uses
4. Postponement of Demand
5. Amount of Money Spent
6. Time
7. Range of Price

Importance of Elasticity of Demand

Price Fixation

Production

Distribution

International Trade

Public Finance

Nationalisation

Review Questions

## **4. ORDINAL UTILITY ANALYSIS**

---

Scale of Preferences

Scale of Preferences or Indifference Schedule

Indifference Curve

Indifference Map

Marginal Rate of Substitution (MRS)

Properties of Indifference Curves

Consumer's Equilibrium

Income Lines

Price Lines

Consumer's Equilibrium

Changes in Consumer's Equilibrium

Substituting Effect

Price Effect

Uses

1. Measurement of Consumer's Surplus
2. Solving the Problem of Exchange

## **Introduction to Business Economics**

3. Index Numbers
4. Effect of Subsidy
5. Rationing
6. Changes in Wage Rates
7. Taxation

### **Criticisms of Indifference Curve Analysis**

1. Old Wine in New Bottle
2. Marshallian Base Essential
3. Unrealistic
4. Absurd
5. Micro-economic Analysis
6. Cannot Explain Uncertainty
7. Introspective
8. Weak Ordering Hypothesis
9. Constancy of Tastes
10. Ignores Demonstration Effect
11. Market Behaviour Ignored
12. Relation of Transitivity Objected
13. Limited Empirical Nature
14. Midway House
15. Rationality
16. Based on Unrealistic Assumption of Perfect Competition
17. All Commodities are not Divisible

### **Indifference Curve Analysis Vs. Marshallian Utility Analysis**

#### **Consumer Surplus**

##### **Assumptions**

##### **Criticism**

1. Knowledge of Potential Prices—Not Known
2. In the Case of Necessaries
3. Substitutes
4. Prestige Goods
5. Differences in Tastes and Fashions
6. Marginal Utility of Money
7. Subjective Utility—An Unrealistic Assumption

##### **Practical Importance**

1. Geographical Importance

2. Public Finance
3. Monopoly Value
4. International Trade
5. Comparison of Real Incomes

Review Questions

## 5. FACTORS OF PRODUCTION

---

Peculiar Characteristic of Land

1. Land is a Free Gift of Nature
2. Supply of Land is Limited
3. Land is not Perishable
4. Land is Immobile
5. Land is a Passive Factor
6. Land is Heterogeneous
7. Land is not Substitutable

Labour as a Factor of Production

Characteristic Feature of Labour

Backward Sloping Supply Curve for Labour

Efficiency of Labour

Factors Influencing Labour Efficiency

Division of Labour

Types of Division of Labour

Merits of Division of Labour

Demerits of Division of Labour

Theories of Population

Malthusian Theory of Population

Criticisms of Malthusian Theory of Population

Merits of Malthusian Population

Optimum Theory of Population

Dalton's Formula

Criticisms of Optimum Theory

Comparison Between Optimum Theory and Malthusian Theory

Capital

Characteristics of Capital

Functions of Capital

Types of Capital

## **Introduction to Business Economics**

Fixed and Circulating Capital

Capital Formation

Stages in the Capital Formation

Creation of Savings

Mobilisation of Savings

Investment of Savings in Real Capital

Forms of Organisation

A Sole Proprietorship

- Characteristics of Sole Proprietorship

- Advantages of Sole Tradership

- Disadvantages of Sole Tradership

Partnership

- Characteristics of Partnership

- Advantages of Partnership

- Disadvantages of Partnership

C. Joint Stock Company

- Characteristics of a Company

- Distinction Between Company and Partnership

- Advantages of Joint Stock Company

- Disadvantages of Joint Stock Company

Entrepreneur

Functions of an Entrepreneurs

Review Questions

## **6. PRODUCTION FUNCTION**

---

Nature of Production Function

Linear Homogeneous Production Function

Production Possibility Curve

Economies of Scale

- Internal Economies

- 1. Technical Economies

- 2. Managerial Economies

- 3. Economy of Material

- 4. Economy of Integration

- 5. Economy of Marketing

- 6. Financial Economies

7. Risk-Taking Economies
8. Economy of Research
9. Economy of Increased Dimensions
10. Welfare Economies
11. Economy of Indivisibilities
12. Economy of Fixed Costs

#### External Economies

1. Economies of Concentration
2. Economies of Information
3. Economies of Specialisation

#### Disconomies of Scale

1. Financial Diseconomies
2. Marketing Diseconomies
3. Technical Diseconomies
4. Risk Taking Diseconomies
5. External Diseconomies
6. Managerial Diseconomies

#### Small Scale production

##### Advantages of Small Scale Production

1. Production According to the Consumers Tastes
2. Limited and Local Demand
3. Locally Available Raw Materials
4. Production of Perishable Goods
5. Utilisation of Local Labourers
6. Incentive to Hard Work
7. Quick Decisions
8. Reorganisation of Methods
9. Direct Relations between the Producer and the Consumer
10. Direct Contract between the Employers and the Workers
11. Economy of Transport
12. Continuous Demand
13. Industries without Machinery
14. Psychological Factors
15. Ancillary Industries
16. Elimination of Monopoly

## **Introduction to Business Economics**

17. Decentralisation of Industries

18. Employment Opportunities

Disadvantages of Small Scale Production

Review Questions

## **7. LAW OF VARIABLE PROPORTIONS**

---

Assumptions

Three Phases of the Law

The Stage of Operation

Explanation of Increasing Returns (Stage 1)

Explanation of Diminishing Returns (Stage 2)

Explanation of Negative Returns (Stage 3)

Importance

The Law of Returns to Scale

Assumption

Increasing Returns to Scale

Constant Returns to Scale

Decreasing Return to Scale

Producers Equilibrium (or) ISO Quants

Properties of Equal Product Curves

Iso-Cost Line

Producer's Equilibrium with Equal Product Curves

Scale Line or Expansion Path

Review Questions

## **8. CONCEPTS OF COST AND REVENUE**

---

Money Cost

Real Cost

Social Cost and Private Cost

Opportunity Cost

The Concept of Opportunity Cost may be Stated in Two Ways

Importance

Limitations

The Economic Theory of cost

Short-run Costs

The Relationship between ATC and AVC

The Relationship between MC and ATC  
Long Run Costs Curves: The Envelope Curve  
The Concept of Revenue  
Relationship between AR and MR  
Relationship between AR and MR under Perfect Competition  
Relationship between AR and MR under imperfect Competition  
Elasticity of Demand, Average Revenue and Marginal Revenue  
Review Questions

## **9. LAW OF SUPPLY**

---

Exceptions

Conditions of Supply

Elasticity of Supply

- (1) Elasticity of Supply is Relatively Elastic
- (2) Elasticity of Supply is Unity
- (3) Elasticity of Supply is Relatively in Elastic
- (4) Elasticity of Supply is Zero
- (5) Supply is Perfectly Elastic

Determinants of Elasticity of Supply

Review Questions

## **10. MARKET MORPHOLOGY**

---

Kinds of Market

The Size or the Extent of Market

Market Structure

Perfect Competition

Meaning of Perfect Competition

Feature of Perfect Competition

Short-run Equilibrium

Equilibrium of the Firm in the Short-run

The Supply Curve of the Firm and The Industry

Short-run Equilibrium of the Industry

Equilibrium of the Firm in the Long-run

Equilibrium of the Industry in the Long-run

Importance of Time Element in the Determination of Value

1. Market Period

## **Introduction to Business Economics**

2. Short Period

3. Long Period

Market Price and its Determination

1. Perishable Goods

2. Non-perishable Goods

Short Period

Determination of Normal Price (long period Price)

Long-Run Normal Price in Increasing Cost Industry

Long-Run Normal Price in Constant-Cost Industry

Long-Run Normal Price in Decreasing Cost Industry

Comparison Between Market Price and Normal Price

Monopoly

Features

Nature of Demand Curve

Monopoly Equilibrium with Zero Marginal Cost

Short-run Equilibrium Under monopoly

Long-run Equilibrium Under monopoly

Conditions for Price Discrimination

Profitability of Price Discrimination

Iso-Elastic Demand Curves in Two Markets

Elasticity of Demand is Different in two Markets

Degrees of Price Discrimination

Price Discrimination of the Second Degree

Price Discrimination of the Third Degree

Dumping

Evils of Monopoly

Control of Monopoly

Control of Monopoly Through Legislation

Monopoly and Perfect Competition Compared

Monopolistic Competition

Features

Price Determination Under Monopolistic Competition

Individual Equilibrium and Price Variation

Group Equilibrium and Price Variation

Production Variation

Individual Equilibrium and product variation

Group Equilibrium and Product Variation  
Selling Cost and Price Determination  
Production Cost versus Selling Cost  
Individual Equilibrium and Selling Cost  
Group Equilibrium and Selling Cost  
Optimum Selling Costs

Wastes of Monopolistic Competition

1. Excess Capacity
2. Existence of Inefficient Firms
3. Waste Due to Cross Transport
4. Advertisement
5. Unemployment
6. Lack of Specialisation

Excess Capacity Under Monopolistic Competition

Two Important Features Emerge from this Analysis

Assumptions

Criticisms

Oligopoly

Meaning and Classification Oligopoly

Classification of Oligopoly

Characteristics of Oligopoly

1. Interdependence
2. Indeterminateness of Demand Curve
3. Conflicting Attitudes of Firms
4. Element of Monopoly
5. Price Rigidity

Price Determination Under Oligopoly

Independent Pricing

Price Leadership

Pricing under Collusion

Models of Oligopoly

Cournot Model

Edgeworth Model

The Chamberlin Solution

Paul M. Sweezy Model of Oligopoly

The Kinky Demand Curve Theory

## **Introduction to Business Economics**

Critical Appraisal of Kinked Demand Curve Theory

Full Cost Pricing and Kinked Demand Curve

Break-even Analysis

Contribution Margin

Assumptions

Limitations

Uses of Break-even Analysis

1. Safety Margin
2. Target Profit
3. Change in Price
4. Change in Costs
5. Make or Buy Decision
6. Advertising Decisions
7. Plant Expansion Decision
8. Plant Shut-down Decisions

Review Questions

## **11. DISTRIBUTION NATIONAL INCOME**

---

Distribution National Income

Marshall's Definition

Pigou's Definition

Fisher's Definition

Kuznet's Definition

Concepts of National Income

Gross National Product (GNP)

Net National Product (NNP)

Personal Income

National Income at Factor Costs (NIFC)

Disposable personal Income (DPI)

Measurement of National Income

1. Product Method
2. Income Method
3. Expenditure Method

Difficulties of Calculating National Income

1. Non-monetised Sector
2. Exclusion of Free Services

3. Statistical Data
4. Double Counting
5. Transfer Earning
6. Income of Foreign Companies
7. Unproductive Activities
8. Difficulties of Comparison
9. Problems Due to Changes in Market Prices

Special Difficulties in Underdeveloped Countries

General Theory of Distribution

Functional vs. Personal Distribution

Marginal Productivity Theory of Distribution

Statement of the Theory

Meaning of Marginal Productivity

Assumptions of the Theory

Criticisms

Conclusion

Modern Theory of Distribution

Demand Side

Supply Side

Wages

Distinction Between Real Wages and Normal Wages

Factors Determining Real Wages

Need For a Separate Theory of Wages

Theories of Wages

Subsistence Theory of Wages

WAGE FUND THEORY

Residual Claimant Theory

Standard of Living Theory of Wages

One-sided Theory

Long-Run

Vague Concept of Standard of Living

Silent about Differential Wage Rates

Wage and Standard of Living

Bargaining Theory of Wages

Marginal Productivity Theory of Wages

Assumption of the Theory

## **Introduction to Business Economics**

Criticism

Discounted Marginal Productivity Theory of Wages

Criticism

Modern Theory of Wages

Demand for Labour

Supply of Labours

Determination of the Equilibrium Wage Level

Trade Unions and Wage Determination

Can Trade Unions Raise Wages?

Wage Differentials

The supply curve of labour

Ricardian Theory of Rent

The Ricardian Theory of Rent

Assumptions of the Ricardian Theory of Rent

Criticism of the Ricardian Theory of Rent

Modern Theory of Rent

Rent as a Surplus Over Transfer Earnings

Quasi-rent

Quasi-rent Arises Under Two Conditions

Rent Element or Quasi-Rent in the Earnings of Other Factors

Production

Quasi-Rent in Interest

Quasi-Rent in Wages

Quasi-Rent in Profit

Quasi-Rent in the Personal Incomes

Rent and Quasi-Rent

Interest

Net Interest and Gross Interest

Gross Interest

Theories of Interest

Marginal Productivity Theory of Interest

Abstinence Theory

Agio theory of Interest

Criticism

Time Preference Theory of Interest

Criticism

Classical Theory of Interest

Criticism of the Theory

The Neo-Classical Loanable Funds Theory

Demand for loanable Funds

Investment Demand

Consumption Demand

Supply of Loanable Funds

Supply of Loanable Funds from Savings

Supply from Disharding

Bank Money

Disinvestment

Criticism

(a) Transaction Motive

(b) Precautionary Motive

(c) Speculative Motive

The Liquidity Trap

Supply of Money

Determination of the Rate of Interest

Criticism

Modern Theory of Interest Hicks-hansen Synthesis

Introduction

Theories of Profit

Kinds of Profit

Net Profit

Normal Profit and Abnormal profit

Theories of Profit

Rent Theory of Profit

Wage Theory of Profit

Risk Theory of Profit

Uncertainty Bearing Theory of Profit

Dynamic Theory of Profit

Innovation Theory of Profit

Marginal Productivity Theory of Profit

Criticisms

Review Questions

Characteristics of Public Utilities

Marginal Cost of Production Theory

Criticisms

Average Cost of Production Theory

Fair Return Principle

Actual Pricing

Concentration of Economic Power

Measurement of Concentration

Types of Economic Concentration

Product-wise Concentration

Country-wise Concentration

Causes for Concentration of Economic Power

Consequences of Concentration of Economic Power

State Policy

Monopolies Inquiry Commission Reports

Remedial Measures

Non-legislative Measures

Legislative Recommendations

Inflation 328

Definition

Cause of Inflation

Factors Causing an Increase in Demand

Factors Causing a Decrease in Supply

Inflationary Gap

Types of Inflation

1. Creeping, Walking, Running and Galloping Inflations

Comprehensive and Sporadic Inflations

Open and Repressed Inflation

Full Inflation and Partial Inflation

Peacetime, Wartime and Post-war Inflation

Currency Inflation and Credit Inflation

Effects of Inflation

Effect on Production

Effects on Distribution

On Debtors and Creditors

On Wage and Salary Earners

On Fixed Income Groups

On Investors

On Farmers

Anti-inflation Policy

Business Cycles

Definition

Classification of Business Cycles

1. Major and Minor Cycles

Building Cycles

Kondratief Cycles (or Long Waves)

Feature of Business Cycle

Phases of Business Cycle

Depression

Recovery

Prosperity

Boom

Recession

Theories of Business Cycle

Sunspot Theory

Psychological Theory

Over-investment Theory

Over-saving Theory

Keynes' Theory of Trade Cycles

Schumpeter's Innovation Theory

Monetary Theories of Trade Cycles

Hayek's Theory has Certain Weaknesses

Control of Trade Cycle

1. Monetary Policy

2. Fiscal Policy

3. Automatic Stabilisers
