

# CONTENTS

1. Relation and Function
  2. Differential Calculus
  3. Integral Calculus
  4. Determinants and Matrices
  5. Co-Ordinate Geometry in a Plane
  6. Counting : Permutation and Combination
  7. Probability Theory
  8. Random Variables and Probability Distributions
  9. Frequency Distribution and its Characteristics
  10. Correlation and Regression
  11. Hypotheses and Test of Significance
- Mathematical and Statistical Tables
